Virtual Golf Fundraiser

November 20th – December 20th $25 p/player

Join us in raising funds "FORE" high school & college auto collision repair programs through our winter virtual golf fundraiser. You can participate from the comfort of your home & zero golf skill is needed. The $25 registration fee allows you to play an unlimited number of rounds of virtual golf during the 30-day tournament, while supporting your local collision school programs.

Your participation helps these schools purchase needed tools, equipment, and supplies for their collision repair program to ensure their students receive the best technical education possible.

The Collision Repair Education Foundation (CREF) is a national charity that supports collision repair programs, students, and instructors. CREF's efforts are focused on attracting students to these local technical programs, supporting them while in school, and connecting them with local/national industry employers to address the industry's aging workforce and need for entry-level staff.
